

Chapter 87

**Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof**

NOTES—

1. This Chapter does not cover railway or tramway rolling-stock designed solely for running on rails.
2. For the purposes of this Chapter, “tractors” means vehicles constructed essentially for hauling or pushing another vehicle, appliance or load, whether or not they contain subsidiary provision for the transport, in connection with the main use of the tractor, of tools, seeds, fertilisers or other goods.

Machines and working tools designed for fitting to tractors of heading 87.01 as interchangeable equipment remain classified in their respective headings even if presented with the tractor, and whether or not mounted on it.

3. Motor chassis fitted with cabs fall in headings 87.02 to 87.04, and not in heading 87.06.
4. Heading 87.12 includes all children’s bicycles. Other children’s cycles fall in heading 95.03.

NEW ZEALAND NOTE—

1. Parts and components of the goods of heading 87.01, 87.02, 87.03, 87.04 or 87.06 imported unassembled in accordance with Section 14 of the Tariff Act 1988 and notwithstanding that these may be imported in more than one shipment and from different sources, are deemed to fall within the Tariff item specifically provided for these goods within the appropriate heading. This provision is, however, not to be taken to apply to parts and components which the Minister has determined must be entered separately. These parts and components are to be entered under the Tariff item specifically provided in the heading within which they would fall to be classified if imported separately.
