

**Disclaimer:**

This document is a consolidated version of the Customs (Export Entry) Rules 1997 produced by the New Zealand Customs Service as a reference document only. It has been compiled from the official rules that were made by the Comptroller of Customs. Copies of the official rules and amendment rules were notified in the New Zealand Gazette and are available on the New Zealand Customs Service website.

## **Customs (Export Entry) Rules 1997**

PURSUANT to Section 288(1)(e) of the Customs and Excise Act 1996 the Chief Executive hereby makes the rules prescribing the form and manner in which goods to which section 49(1) of the Act applies must be entered, the particulars to be provided in the entries, and the form of declaration to be made in the entries.

### **1. Title and application**

- (a) These rules may be cited as the Customs (Export Entry) Rules 1997.
- (b) These rules are made for the purposes of prescribing the form and manner in which goods that are exported or to be exported from New Zealand must be entered, together with the particulars to be provided and the form of declaration to be made in the entry.
- (ba) These rules apply only to export entries made using the legacy export entry message format. Export entries that use the new WCO message content will fall under the new Customs (Export Entry WCO Message) Rules 2013.
- (c) These rules shall come into force on 7 July 1997.

### **2. Interpretation**

- (1) In these rules, unless the context otherwise requires:
  - (a) The term "the Act" means the Customs and Excise Act 1996;
  - (b) The term "the Regulations" means the Customs and Excise Regulations 1996;

- (c) Any terms used in these rules that are defined in Section 2 of the Act shall have the meanings given to them in that section;
- (d) "Prescribed form" or "form" means a form prescribed by the Chief Executive and set out in Schedule 1 to these rules (and includes an electronic message format); and a reference to a numbered form is a reference to the form so prescribed and numbered.
- (e) "legacy export entry message" means the message lodgement and content provided to the New Zealand Customs Service under the principal rules.
- (f) "Joint Border Management System" (JBMS) means the integrated border management computer system developed by the New Zealand Customs Service (Customs) and the Ministry for Primary Industries (MPI) to modernise and integrate New Zealand's border clearance processes for people, goods and craft.
- (g) "WCO message" means the electronic message lodgement and content for the entering of goods for exportation that is provided to the Joint Border Management System through Trade Single Window in accordance with the World Customs Organizations' Data Model as adapted for New Zealand.
- (h) The term "Trade Single Window" (TSW) means the computer system application jointly managed by Customs and MPI that enables parties involved in international trade and transport to submit craft and cargo clearance data that is required by New Zealand border agencies electronically, once, through one entry point.

### **3 Purpose and Manner of Making Export Entry**

Goods to which section 49(1) of the Act applies must be entered for any one of the following purposes—

- (a) For export; or
- (b) For export under drawback -

as the case may be, by making entry in the manner set out in rule 4(a) and 4(ab) of these rules.

### **4. Form and Content of Making Entries**

- (a) Every entry required under section 49(1) of the Act shall be in Format E2 through the use of a Customs computerised entry processing system.
- (ab) Notwithstanding paragraph (a) of this rule, if the Customs computerised entry processing system is not able to accept an entry in Format E2, then a Customs officer engaged in the task of passing export entries may authorise an entry to be made in Form C5 (Export Entry), including any continuation sheet in Form C5CS
- (b) Every entry made in any of the forms specified under paragraph (ab) of this rule shall include the particulars specified in or by such form and shall be completed in

accordance with to the requirements set out in those forms, and in accordance with Schedule 2 to these rules.

- (c) Every entry made by a Customs computerised entry processing system shall be completed in accordance with the requirements set out in the Electronic Message Format (E2), and in accordance with Schedule 2 to these rules.
- (d) Every person required to make an entry in any one or more of the prescribed forms shall, in completing the entry, provide the answers required in relation to the particulars specified in or by such form, and where the form requires a declaration to be made, make such declaration.

## **5. Notes**

Where a prescribed form contains any explanatory or other notes such notes do not form part of the prescription but are intended for the guidance of the person in the completion of an entry.

## **6. Revocation**

The Customs (Export Entry) Rules 1996\* are hereby revoked.

---

\*Notified in the New Zealand Gazette (Customs Edition) of 27 August 1996

**Rule 4(b) and 4(c)****SCHEDULE 2****PART A  
EXPORT ENTRIES**

General requirements:

- (a) The declaration on the entry is to be completed in full.
- (b) For electronic entries in place of a signature the declarant must use the unique user identifier issued to him or her by the Customs Service.
- (c) The requirements and form for completing both the Manual entry **Export Entry (Form C5)**, and **Electronic Message Format (Format E2)** are set out below.
- (d) In this Schedule the term "electronic format" means an electronic message format when using a Customs computerised entry processing system.
- (e) All entries made using Format E2 must be made in accordance with the instructions set out in **The New Zealand Customs Service Guidelines for Electronic Commerce, EDI Message Implementation Guidelines** (first published on 10 December 1996 and include all additions and amendments thereto). This publication is available from Publications, New Zealand Customs Service, Private Bag 1928, Dunedin.
- (f) The maximum number of detail lines that can be made on an entry are:
  - 150 for manual forms
  - 250 for electronic format
- (g) All fields on an entry made in any form must be completed unless otherwise stated.

**Entry Number**

Note: This number is created by the Customs computerised entry processing system and the field is to be left blank.

**Entry Type**

Note: It is necessary to state; " **Export**" or "**Drawback**".

**Client Reference**

Note: This is used as a means of identifying a client's entry and must be an unique number for this transaction within the client's system.

**Payment Method (Drawback)**

Notes:

- i. Request the method of payment for drawback by indicating:
  - "Cash",
  - "Deferred" - to be credited to a client's deferred account.
- ii. If no drawback is being claimed this field is to be left blank.

**Processing Port**

Notes:

- i. This field in the electronic format is used to identify the Customs office at which entry processing is requested.
- ii. The codes for requested processing ports are set out in Part B to this Schedule.
- iii. For manual entry this field is not available. Processing port is port of lodgement of entry.

**Exporter/Licensee and Code**

Notes:

- i. For manual entries state the full trading name and code of the exporter must be stated.
- ii. For electronic entries only the exporter or licensee code is required.
- iii. The code is available on request to the Customs.

**Agent and Code**

Notes:

- i. For manual entries state the full trading name, and code of the agent must be stated.
- ii. For electronic entries only the agent code is to be stated.
- iii. Where the exporter or licensee, and agent codes are the same, the agent's name and code are to be left blank.

**Customs Controlled Area and Code**

Notes:

- i. For goods removed from a Customs controlled area licensed for the purpose of Section 10(a), (b) or (f) of the Act;
  - For a manual entry the full trading name and code of the Customs controlled area from which goods are removed is to be stated.
  - For electronic entries only the code for that Customs controlled area is to be stated.
- ii. In all other cases the field must be left blank.
- iii. The code is available from the licensee of the Customs controlled area.

**Declarant's Code**

Notes:

- i. For manual entries the declarant's code must be stated if available.
- ii. For electronic entries the declarant's code must be stated.

**Declaration**

Note: For a manual entry the exporter's or licensee's or agent's full name, signature and date must be completed.

**Country of Destination**

Notes:

- i. State the country the goods are destined to.
- ii. This field must state the 2 character code set out in the United Nations Economic Commission for Europe publication: **Trade Data Element Directory**.
- iii. The code is available from the Customs.
- iv. For manual entries state the country name in full.

**Deposit (Refund)**

Note: If a deposit of money is held by the Customs for the goods being exported, state the deposit amount.

**Process Indicator**

Note: Indicate by stating whether the goods have been:

- "Sold", or are
- "On consignment".

**Completion of Sight/Temporary Entry**

Note: State the entry number of the original entry when the goods were imported into New Zealand on a sight entry or a temporary entry.

**Permit information - Authority and Number**

Notes:

- i. Only information that applies to the total entry is to be recorded in these fields. Data that is relevant only to a detail line is to be recorded in that line.
- ii. These fields must state the relevant code, as set out in Part C to this Schedule, and the permit number.
- iii. It is the exporter's responsibility to obtain the permit number from the permit authority. e.g., Ministry of Health.
- iv. For the period 1 October 1996 to 30 September 1999 note the export prohibitions listed in the Customs Export Prohibition Order 1996.

**Other Information - Code and Data**

Notes:

- i. Only information that applies to the total entry is to be stated in these fields. Information that is relevant only to a detailed line is to be recorded in that line.
- ii. These fields must state the relevant code and data as set out in **Part D** to this Schedule.

**Remarks**

Note: Any additional information which is relevant to processing the entry may be stated in this field.

**Mode of Transport**

Notes:

- i. In this field state "Sea" "Air" or "Mail" being the relevant mode by which the goods are being transported for export.
- ii. Not required for periodic entries.

**Voyage Number**

Notes:

- i. This field is only required for export's made by sea.
- ii. The voyage number is to be obtained from the carrier and stated.

**Craft/Flight.**

Notes:

- i. The craft is the one that departs to a point outside New Zealand with the exported goods.
- ii. Use the:
  - vessel's name; or
  - flight number of an aircraft.
- iii. Not required for periodic entries.
- iv. Not required for exports by mail.

**Date of Export**

Note: State by way of: day, month, and year.

**Total Gross Weight (kg)**

Note: This field must state the total gross weight of the shipment covered by this entry expressed in kilograms.

**Port of Loading**

Notes:

- i. State the port the goods are or expected to be loaded for shipment to a point outside New Zealand.
- ii. This field must state the 5 character port of loading code set out in the United Nations Economic Commission for Europe publication **Trade Data Element Directory**.
- iii. The code is available from the Customs.

**Port of Discharge**

Notes:

- i. State the final port at which the goods are expected to be discharged.
- ii. This field must state the 5 character port of discharge code set out in the United Nations Economic Commission for Europe publication **Trade Data Element Directory**.
- iii. The code is available from the Customs.

**Delivery Authority and Code**

Notes:

- i. These fields are only to be completed when an electronic delivery order is to be sent to a person other than the exporter or his or her agent.
- ii. The alternative delivery order recipients full trading name and code is to be stated.
- iii. The code is to be obtained from the delivery authority.

**Number and Kind of Packages**

Notes:

- i. State the number and kinds of packages listed on the bill of lading, waybill or parcels post, as the case may be.
- ii. The package type code as set out in Part F to this Schedule is to be used.
- iii. Not required for periodic entries.

**Container Number and Container Status**

Notes:

- i. State the container number in which the goods are shipped.
- ii. Also state as:
  - "empty"
  - "full"
  - "less than a container load" or
  - "bulk"
- iii. This is not required for periodic entries or mail shipments.

**Bill Number and Bill Type**

Notes:

- i. State the bill of lading number or waybill number.
- ii. Also state the bill type code as:
  - MB - master
  - HWB - house
- iii. Not required for periodic entries.

**Detail Line Number**

Note: Detail lines are to be numbered sequentially starting with the number 1.

**Description of Goods**

Note: The goods must be clearly and correctly described, in English.

**Tariff Item**

Note: This field must state the tariff classification of the goods by reference to the appropriate tariff number and statistical key code in accordance with the "New Zealand Customs Service Working Tariff Document" (excluding any reference to Chapter 99 therein.)

**Country of Origin**

Notes:

- i. For manual entries state, in full, the country of origin of the goods.
- ii. For electronic entries state the 2 character country code set out in the United Nations Economic Commission for Europe publication: **Trade Data Element Directory**.
- iii. The code is available from the Customs.

**Statistical Unit, Statistical Quantity**

Notes: These fields must state the quantity and appropriate statistical unit as set out in the "New Zealand Customs Service Working Tariff Document".

**Supplementary Unit and Supplementary Quantity**

Note: If the duty calculation requires a second quantity amount (and unit), the supplementary unit and value is to be stated. An example is goods that are dutiable in accordance with the volume of alcohol present in the goods.

**FOB (Whole NZ \$)**

Note: State the FOB amount involved in the export of the goods in New Zealand dollars.

**Exchange Rate Indicator**

Note: Indicate the basis of the exchange rate:

- "F" floating
- "C" forward cover or fixed
- "N" New Zealand dollars

**Currency Code**

Notes:

- i. State the currency code for the country in which the goods are traded.
- ii. The relevant codes are listed in Part G to this Schedule.

**Exchange Rate**

Note:

- i. State where applicable the exchange rate used to convert the FOB (Foreign) to New Zealand dollars.
- ii. The exchange rates, are from time to time published in the *Customs Release*.

**FOB (Foreign)**

Note: State the FOB amount in the foreign currency the goods are invoiced in, if applicable.

**Misc. Reason Code and Misc. Amount NZ\$**

Note: These fields only relate to a drawback of ALAC or HERA levies. If these apply state code and amount in New Zealand dollars.

**Drawback Duty NZ\$**

Note: State the amount of duty claimed for drawback in New Zealand dollars.

**Drawback GST NZ\$**

Note:

- i. State the amount of GST drawback claimed in New Zealand dollars.
- ii. This applies only to persons not registered in terms of the Goods and Services Tax Act 1985.

**Total Drawback NZ\$**

Note: State the total drawback sum of the duty, GST and miscellaneous amount sought for the detail line.

**Permit information - Authority and Number**

Notes:

- i. Only information that applies to this detail line is to be stated in these fields.
- ii. State the relevant permit authority code, as set out in Part C to this Schedule, and the permit number.
- iii. It is the exporter's responsibility to obtain the permit number from the permit authority. e.g., Ministry of Health.
- iv. For the period 1 October 1996 to 30 September 1999 note the export prohibitions listed in the Customs Export Prohibition Order 1996

**Prohibited Goods - Code**

Note: These field must state the appropriate code as set out in Part E to this Schedule and a permit may be required for the export of these goods.

**Other Information - Code and Data**

Notes:

- i. Only information that applies to this detail line is to be recorded in these fields. Information that is relevant only to a detail line is to be recorded in that line.
- ii. These fields must state the relevant code and data as set out in Part D to this Schedule.
- iii. Where New Zealand origin is being claimed for preferential tariff rates, to the People's Republic of China, state the certificate of origin number in the other information field of the export entry with the code COO.

**Total Drawback NZ\$**

Notes:

- i. State total amount expressed in New Zealand dollars.
  - ii. Electronic entries do not require this data.
  - iii. If no amount is payable enter "NIL".
