

SOCIAL POST COPY New Zealand Traveller Declaration foot-and-mouth disease messaging

Do you have passengers flying to New Zealand from Bali or Indonesia?

(The following can be included as post copy supporting foot-and-mouth social tiles and banners)

Everyone travelling to New Zealand needs to complete the New Zealand Traveller Declaration.

If you are coming from Bali or Indonesia, there will also be border checks because of foot and mouth disease.

You can't bring meat or animal products to NZ. Everything needs to be clean, especially if you've been in contact with livestock in countries with foot-and-mouth disease.

Go to travellerdeclaration.govt.nz for more information.
