

Please provide these instructions to your nominated customs broker, or TSW declarant.

SES Export Lodgement Field Requirements

It is a requirement to report the SES status of a shipment in the export lodgement. This is done by recording the Secure Load Site ID code/s, the SES-approved seal number, and the name of the party affixing the SES-approved seal.

The secure load site(s) ID code is entered in the **Additional Information** field at the entry level.

- In the Other Information Type field, select code → *Secure Export Partnership*
- In the Other Information Data field, enter the Secure Load Site ID code of the SES-approved secure load site, as listed in Appendix 1 of your SES Approval Document.

If the container has been loaded at multiple sites, report each Secure Load Site ID code individually.

Additional Information

Other Information Type	Other Information Data
<div style="border: 1px solid #ccc; padding: 5px;"> <p style="font-size: small; color: grey;">Start typing or select from dropdown</p> <ul style="list-style-type: none"> Bunkering Cargo only Carment Certificate of origin Cricket World Cup Customs Officer ID Deed of Covenant Exported Ships and Aircraft Goods Levy Exemption MPI Seal No Non-merchandise trade Not GST Registered Passenger Effects Periodic Drawback Print Delivery Order <li style="background-color: #e0f0ff;">Secure Export Partnership Selected for Exam Ship stores Special Event </div>	<input style="width: 95%;" type="text" value="Enter other information data"/> <div style="text-align: right; font-size: small; color: grey;">+ ↻</div>

The SES-approved seal information is entered in the **Containers** section of the Export Lodgement.

- In the Seal Number field, enter the full SES approved seal number with no spaces.
- In the Sealing Party field, enter the name of the company who affixed the SES-approved seal.

Please note this step does not apply to air freight exports.

Containers

Does this shipment have any containers or pallets?

Yes

No
