Government's reason for introducing UPU Mail Import Levy

Cabinet Decision – Cost Recovery Reform (March 2025)

Cabinet approved a per kilogram levy on import UPU mail arriving in New Zealand to ensure fairer cost recovery.

This is because:

- Not having a levy payable on UPU Mail was unfair to industry and inconsistent with having a levy for low-value and high-value goods imported by freight.
- To remove the existing taxpayer subsidies that cover the costs of importing international UPU mail into New Zealand, including the costs of processing and border oversight.
- Previous charging arrangements were unfair to taxpayers, who were paying for the management of risks that they didn't create.

For noting: Only a per kilogram levy is feasible for 1 April 2026, but we will look at moving to a per-consignment charge in the future.

What is UPU mail?

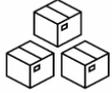

UPU = Universal Postal Union

- UPU mail means postal articles conveyed under the terms of the Universal Postal Convention between postal operators operating within the Universal Postal Union. It does not include items (i.e. fast freight) that are not shipped under the provisions of the UPU.
- Designated operators are an entity officially designated by a UPU member country to operate postal services and to fulfil the related obligations arising from the acts of the UPU Convention in its territory.
- UPU Mail refers to international mail processed under the regulations and standards of the Universal Postal Union (UPU), a United Nations agency that coordinates global postal services.

Who is New Zealand's designated postal operator?

At present, NZ Post is the only designated postal operator in New Zealand for international mail under Section 48(1) of the Postal Services Act 1998.
